

Sajjadul Islam

Frontend Developer

Dhaka, Bangladesh | +880 1634-181621 | sajjad.islam523@gmail.com | linkedin.com/in/sajjadislam523 | github.com/sajjadislam523

PROFESSIONAL SUMMARY

Frontend Developer with experience crafting responsive, performant web interfaces using React.js, Next.js, TypeScript, and TailwindCSS. Delivered a live production platform for a private client in Australia — managing full deployment, frontend engineering, and backend integration end-to-end.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & UI: React.js, Next.js, TailwindCSS, shadcn/ui, Material-UI, Framer Motion

State & Data: Context API, TanStack Query, Axios, Zustand

Build & Dev Tools: Vite, NPM, Git, GitHub, Figma, Postman, VS Code, Docker

Deployment: Vercel, Netlify, Firebase Hosting, VPS (Linux), Nginx

Backend Familiarity: Node.js, Express.js, Django REST Framework, MongoDB, PostgreSQL, Firebase

PROFESSIONAL EXPERIENCE

Frontend Developer • Algohat, Dhaka, Bangladesh

May 2025 – May 2026

- Built and maintained 10+ responsive React.js and TypeScript UI components; translated Figma mockups into pixel-perfect interfaces using TailwindCSS and shadcn/ui, reducing design-to-code time by ~30%.
- Improved performance via code splitting, lazy loading, and efficient state management with Context API and TanStack Query; integrated 5+ RESTful APIs with robust async error handling.
- Collaborated with backend developers and designers in an Agile workflow, participating in code reviews and contributing to accessible, cross-browser compatible layouts that reduced bounce rate.

FEATURED PROJECTS

Marybens Kitchen — Client Production Platform | Next.js 14, TypeScript, TailwindCSS, Django REST API, PostgreSQL, Docker, Nginx

2026

marybenskitchen.com | *Private client repo*

- Deployed a full-stack grocery delivery and restaurant platform for a private Darwin, Australia client — configured VPS, Nginx, and Docker; resolved critical frontend and backend bugs to stabilize for live traffic.
- Designed a unified hub landing page routing users between the e-commerce storefront and restaurant portal, improving navigation clarity and engagement.
- Rebuilt the restaurant section UI with Next.js 14 and TailwindCSS, then connected it to the existing Django REST/PostgreSQL backend and integrated the shared cart system.

ApplyWise — Job Application Tracker | Next.js, TypeScript, TailwindCSS, Redux Toolkit, TanStack Query, Framer Motion, Recharts

2025

github.com/sajjadislam523 | *Deployed on Vercel*

- Built a dark-themed Next.js job tracker with JWT auth, refresh token rotation, and a Recharts analytics dashboard with Framer Motion animations.
- Integrated BullMQ background workers and Gmail/Outlook OAuth for automated application status updates via Nodemailer; resolved production issues including CORS, Tailwind/PostCSS conflicts, and Next.js version mismatches.

EDUCATION

Bachelor of Science in Computer Science and Engineering • The People's University of Bangladesh

2020 – 2024

Relevant Coursework: Data Structures & Algorithms, Web Technologies, UI/UX Design Principles, Software Engineering

CERTIFICATIONS

Complete Web Development Course — Comprehensive frontend and full-stack development certification. (Programming Hero, 2025)
